

Custom entry doors.

Pivot doors, made for your project.

Also available: matching garage doors, interior doors, windows and skylights.

REAL PROJECT / Valley Village - door supplied by Angeles Works

Choose a design. Make it yours.

Start with a style, a photo or your plans. We help define the dimensions, finish, glazing and hardware, then price the complete entrance.

Collection draft: finish names describe appearance. Exact materials, coatings and available opening systems await confirmation.

Find your starting point.

Eight pivot selections and two entry alternatives. Use the reference code when you ask for pricing.

Setting images are AI visualizations based on the original doors. Selection codes are Angeles Works references, not manufacturer model numbers.

PV-01

Warm wood-grain

AI architectural visualization

SHOWN FINISH

Warm brown, horizontal wood-grain appearance

DESIGN DETAIL

A clean, uninterrupted face with a long dark pull.

Original product photo

PV-02

Graphite + sidelight

AI architectural visualization

SHOWN FINISH

Graphite with a warm horizontal accent

DESIGN DETAIL

A contrasting band across the leaf, a silver-tone pull and one glazed sidelight.

Original product photo

PV-03

Geometric black

AI architectural visualization

Original product photo

SHOWN FINISH

Black with geometric grooves

DESIGN DETAIL

An oversized graphic pattern, a broad dark pull and a separate smart-lock unit.

Specify the entrance around your project.

Share your opening size and preferred finish, glass and hardware. We confirm the exact configuration in your quote and drawings.

PV-04

Wood-grain + glass

AI architectural visualization

Original product photo

SHOWN FINISH

Warm wood-grain appearance
with dark glazing

DESIGN DETAIL

Six horizontal glass panels with
a long silver-tone pull.

Specify the entrance around your project.

Share your opening size and preferred finish, glass and hardware. We confirm the exact configuration in your quote and drawings.

PV-05

Sculpted wood-grain

Original product photo

SHOWN FINISH

Charcoal with vertical fluting

DESIGN DETAIL

Two matching leaves with paired long pulls and a smart lock on the right leaf.

Specify the entrance around your project.

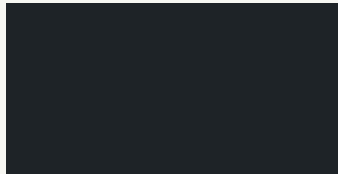

Share your opening size and preferred finish, glass and hardware. We confirm the exact configuration in your quote and drawings.

The details make it yours.

Choose the look first. Confirm the exact finish against a sample.

Charcoal

Black

White

Warm wood-grain

Color families shown for orientation. These are not exact color chips or a statement of material composition. Wood-grain describes the appearance; the underlying material and finish process will be confirmed.

Pulls and locks

Original hardware reference photo

Round or square pulls, dark or metallic-looking finishes, and mechanical or smart-lock preferences can be included in your request.

We confirm the exact hardware model, finish and compatibility before production.

Configuration

Ask about a single leaf, double entry, or sidelights. Opening direction, pivot position, glass requirements and dimensions are confirmed for the selected design.

Let's price your project.

Send a reference code, a photo, a door and window schedule or your plans. You can start with what you have.

01 Send the starting point

Include the project location and any dimensions or design preferences you already know.

02 Review the quote

We confirm dimensions, finish, glazing, hardware, complete pricing and the delivery date.

03 Approve for production

Approve the details in writing. We coordinate delivery to your LA County jobsite; your contractor handles installation.

Need other doors or windows for the project?

Send your plans or door and window schedule, and we'll help price them.
